

ECO-COATING

INNOVATION SERIES

On-Demand Textile Coating System

www.optimumdigital.com

The future of digital textile coating!

Printing Features

- ✓ On-Demand Textile Coating for Digital Printing
- ✓ High Pressure Spray Technology
- ✓ In-line Fabric Drying Technology
- ✓ Reduces coating volumes by up to 70%
- ✓ Significantly reduces energy requirements

Water savings

Energy savings

Chemical savings

Optimum Digital, a pioneer of waterless printing systems introduces Eco-Coating :
an on-demand digital fabric coating process

.This groundbreaking innovation empowers industries with easy to use, precision start-and-stop capabilities,
reshaping the landscape of how coating is applied to fabric for digitally printed fabrics

Optimum Digital's unique Eco-Coating Technology ensures the precise delivery and uniform dispersion of
pre-treatment fluids onto the fabric, optimizing the digital print outcome to perfection.
